INDEX TO VOLUME XLII

ELECTRICAL REVIEW

JANUARY 3 TO JUNE 27, 1903

Articles marked * are illustrated; (E.) indicates "Editorial;" (P.) indicates notes under "Recent Electrical Patents;" (R.) indicates "Review of Current Engineering Literature."

A

Abstract of a statement made by Mr. John M. Bowers, of the Consolidated Gas Company, at legislative hearing at Albany, N. Y..... 546
Accumulator, the Tribelhorn (R.).... 346
Accumulator locomotives on two lines of the Italian Central Railway in Emilia, Italy, by Enrico Bignami*.. 298
Accumulator traction on railroads (E.) 295
Action of electrical shock, the (R.).. 520
Albuquerque Gas, Electric Light and Power Company, by J. H. Rusby*.. 682
Alternating-current apparatus (P.)*... 616
Alternating-current meter (P.)*..... 107
Alternating-current motors, variable speed (R.)..... 139
Alternating-current motors, system for starting (P.)*..... 57
Alternators for power transmission, by Alton D. Adams..... 274
Aluminum and bauxite..... 898
Aluminum in the Goldschmidt works at Essen, the utilization of (E.).... 880
American Association for the Advancement of Science, the.....68, 96
American Association for the Advancement of Science, the (E.)..... 117
American and British railway practice (E.) 461
American Electrochemical Society..434, 498
American Electrochemical Society (E.). 495
American Electrochemical Society, third annual meeting of the..... 568
American Electrotherapeutic Association 657
American Institute of Electrical Engineers.....113, 160, 269, 476, 674
American Institute of Electrical Engineers, annual meeting..... 716
American Institute of Electrical Engineers, associate members elected, 10, 588, 666, 868
American Institute of Electrical Engineers, Boston branch.....164, 269, 475
American Institute of Electrical Engineers, Chicago branch..... 415
American Institute of Electrical Engineers, Cincinnati chapter..... 10
American Institute of Electrical Engineers, committee on engineering data 611
American Institute of Electrical Engineers, communication from Samuel Sheldon 157
American Institute of Electrical Engineers, February announcement.... 336
American Institute of Electrical Engineers, local organizations..... 10
American Institute of Electrical Engineers, Philadelphia branch, 268, 415, 475, 576, 779, 833, 905
American Institute of Electrical Engineers, Pittsburg branch..... 268
American Institute of Electrical Engineers, Schenectady branch..... 268
American Institute of Electrical Engineers, tendencies of central station development 602
American Institute of Electrical Engineers, train lighting..... 329
American Institute of Electrical Engineers, University of Wisconsin branch 411
American Institute of Electrical Engineers, Washington branch..... 550
American Society of Mechanical Engineers 863
American Telephone and Telegraph Company 507
American Telephone and Telegraph Company, annual report of..... 470
Annual convention of the American Institute of Electrical Engineers (E.) 813
Annual dinner of the American Institute of Electrical Engineers, the... 202
Annual meeting of the Society for the Promotion of Engineering Education 942
Annual report of the General Electric Company, the eleventh..... 614
Annual report of the director of the National Bureau of Standards..... 545
Annual report of the electrical department of Cambridge, Mass..... 188
Annual report of the wire department of the city of Boston..... 718
Annunciator system, a new..... 935
Apparatus for communicating signals through space (P.)*..... 137
Apparatus for electromagnetically recording speech (P.)*..... 345
Apparatus for the production of high-frequency currents for medical use 727
Apparatus for tapping or drilling rails (P.) 584
Application of three-phase motors to the electrical driving of workshops and factories 611
Arc lamp circuits, arrangements for operating 655
Arc light carbons for intense light (R.). 587
Arnold, Bion Joseph..... 717
Artemieff's electrical armor (R.)..... 826
Ashtabula Telephone Company, exchange of the*..... 804
Asia, American electrical machinery in* 61
Attuning vertical wire oscillators, method of (P.)*..... 172
Auckland electric tramways, New Zealand, (R.)..... 521
Aude, France, the distribution of electrical energy at 20,000 volts in the Department of the, by Enrico Bignami* 722
Automatic block signaling (E.)..... 792
Automatic electric elevator*..... 898
Automatic electrically controlled engines, by George E. Walsh..... 203
Automatic regulator for constant-current dynamos (P.)*..... 518
Automatic telephone operator..... 304
Automatic voltage regulators, by H. C. Wirt 242
Automatically attuning electric circuits, 361
Automobiles (E.)..... 221
Automobiles, electric..... 188
Automobile contest, an (E.)..... 462
Automobile fire service, electric..... 223
Automobile regulation (E.).....599, 752
Automobile show.....72, 145
Automobile show, the (E.)..... 117
Automobile show, the New York..... 113
Automobile testing 549

B

Baldwin Locomotive Works, history of the 251
Ball-bearings 379
Battery electric (P.)*..... 204
Bedell system of composite transmission, the, by A. S. McAllister..... 362
Behavior of rotary converters in traction installation, with stationary accumulators (R.)..... 207
Berliner decision, the (E.)..... 119
Berliner patent suit, decision in the.... 147
Boiler and furnace efficiencies, by A. Bement* 852

Book Reviews.
"Aide-Memoire de Photographie Pour 1903"..... 679
British Standard Sections..... 768
Bureau of Longitudes Annual..... 128
Compendium of Electricity and Electrometallurgy 416
Conductors for Electrical Distribution 415
Der Dreistrommotor und Eisenbahnmotor 588
Design of Dynamos..... 311

Book Reviews. (*Continued.*)
Dies; Their Construction and Use for the Modern Working of Sheet Metals 201
Electrical Engineers' Pocketbook.. 201
Electrical Problems for Engineering Students 162
Electrical Trades Directory..... 507
Electricity as Applied to Mining... 311
Hardening, Tempering, Annealing and Forging of Steel..... 201
India-Rubber and Gutta-Percha.... 868
Machinery for Model Steamers.... 833
Modern Electrolytic Copper Refining 679
Modern Machine Shop Tools..... 710
Notes on Track..... 679
Principles of Inorganic Chemistry.. 283
Secondary Batteries..... 311
Simple Scientific Experiments..... 833
Small Electric Motors..... 868
Storage Battery Engineering..... 679
Successful Advertising; How to Accomplish It..... 201
The Art of Illumination..... 201
The Copper Handbook. Stevens... 710
The Induction Motor..... 507
The Utility of a Classic or Academic Education..... 710
Bournemouth Corporation Electric Tramways Undertaking (R.)..... 207
Bournemouth Corporation Combined Conduit and Trolley Tramway System, A. Webster*..... 335
Braking, railroad car (E.)..... 2
Branly coherer, the, by C. L. Durand,* 343, 718
Bridges, electrically operated rolling-lift, by Waldon Fawcett..... 121
Brief electrical contacts, experiments concerning very..... 376
British engineering conference, the.... 775
British Institution of Electrical Engineers 540
British Post Office telegraph, report of, 241
Brush, electric (P.)*..... 107
Brush storage battery patents—effects on the storage battery industry—expiration of the (E.)..... 293
Bulletin of the University of Minnesota. 364
Bureau of Engraving and Printing, Washington, D. C., electrical equipment of, by J. E. Price*..... 134
Burning of wooden pins on high-tension transmission lines, by C. C. Chesney* 445
Bust of Dr. John Hopkinson, a..... 776
Butte Lighting and Power Company, the (R.)..... 659

C

Cables up, mixing the..... 113
Cable, an old rubber insulated..... 209
Cable notes, Pacific, by Lewis G. Martin. 230
Cable, the American Pacific*..... 68
Cableships Restorer and Patrol, the (R.) 451
Calculations of the induced electromotive force and the form factor of alternators (R.)..... 282
California petroleum and its use as fuel. 800
Canadian Electrical Association..... 588
Canadian Niagara development, by Orrin E. Dunlap*..... 12
Canal lift, an electrically worked..... 364
Canals, electric haulage on..... 144
Cancer, theory of X-ray action on.... 508
Candy-making machine, electrical (P.)* 136
Car fender, a new, by Emile Guarini*.. 409
Car lighting system, electric, by W. L. Bliss* 336, 364
Car stops (E.)..... 152
Carbon furnace (P.)*..... 17
Cascade Water, Power and Light Company, Cascade, B. C., by W. G. McConnon 608
Ceara rubber in Nicaragua*..... 379

30278

Celluloid insulator, a (R.) 586
Central Electrical Supply Company, London, works of the (R.) 175
Central station design, tendencies in (E.) 597
Choice of frequency for very long lines, by P. M. Lincoln* 802
Chicago Electrical Association 336
Chicago transportation problem, report on the engineering and operating features of the 98
Cincinnati, Georgetown & Portsmouth Railroad changed from steam to electric traction, by E. M. Stevens*. 464
Circuit controller, a new (R.) 520
Cleckheaton electric works (R.) 19
Coal, the world's consumption of 84
Coherence (R.) 619
Coherer action under the microscope, by G. T. Hanchett 599
Coherer, notes on the (R.) 619
Colorado Springs Electric Company, by J. H. Rusby* 406
Colorado Springs & Interurban Street Railway System, by J. H. Rusby* .. 537
Commencement exercises at Worcester Polytechnic Institute, the 868
Commercial wireless telegraphy 475
Commercial vehicle test 610
Commutator and brush rigging (P.)*. 136
Commutator design, notes on (R.) 483
Comparison between steam and electrically driven auxiliary plant in central station, by C. D. Taite and R. S. Downe* 730
Composite carbon electrodes (P.)* 56
Compound turbine (P.)* 689
Conditions of progress in electrochemistry, Dr. Joseph W. Richards 642
Conduit exhibit at the convention 745
Conduit railways, methods of improvement (P.)* 934
Conduit system of Paris electric roads, the extensive, by C. L. Durand* ... 51
Conigrams, John Horn 585
Connectors, precaution in the use of .. 869
Contact resistance of carbon brushes, the (R.) 387
Continuous current for power transmission, by Alton D. Adams 402
Controller, electric current (P.)* 585
Convenient supplies schedule 678
Convention week, American Association for the Advancement of Science .. 96
CONVENTIONS.
American Institute of Electrical Engineers 776, 933
American Street Railway Association 390
Annual convention of the American Institute of Electrical Engineers. 715, 776, 933
Canadian Electrical Association 776, 869, 893, 896
Independent Telephone Association of the United States..715, 828, 901, 921
Independent Telephone Association of Wisconsin 108, 245, 267
International Association of Municipal Electricians 10, 280, 649, 907
National Electric Light Association, the 390, 777, 807
New York State Telephone Association 745, 900
Northwestern Electrical Association 108, 154
Pacific Coast Electric Transmission Association 796
Twenty-sixth convention of the National Electric Light Association, the* 711
Cooper Hewitt inventions, the (E.) 398
Cooper Hewitt's wireless telegraphy development (E.) 259
Copper deposits in New Mexico 746
Copper smelting and refining in Montana 315
Copper district, the Globe, Arizona 196
CORRESPONDENCE.
Correction, by G. H. Gibson 352
Correction from Professor Pupin, a. 313
Engineering data, by Joseph E. Lockwood 414
Ferraris-Tesla inventions, by William Stanley 415
Gilmore socket case, the 486
Manila's new fire-alarm system 508
CORRESPONDENCE. (*Continued*)
National Electric Light Association. 499
Siloxicon, E. G. Acheson 925
Transformer construction, by G. Huber 352
Corrosion of metals by electrolysis, by A. A. Knudson* 604
Costs of the London County Council's tramways 794
Counter-shafts, means for electrically operating (P.)* 898
Creosoted telegraph poles, the life of .. 167
Crystallization in an electric field (R.) 936
Current classification in electrotherapeutics (E.) 325
Cutting angles of tools for metal work as affecting speed and feed 201
Cutout for Nernst lamp, electrical (P.)* 56

D

Daft and Williams electrical prospecting system (R.) 587
Daniel cell, the electromotive force of the (R.) 866
Debut of the alternating-current transformer, the (R.) 866
Decision in the Berliner patent suit .. 147
Dedication ceremonies 507
Dedication of the Louisiana Purchase Exposition 688
Depreciation as a factor in the electrical fire hazard (E.) 630
Design of electric water power stations, by Alton D. Adams* 706
Designing of telephone apparatus, the, by W. A. Taylor* ...11, 55, 85, 195, 229, 502, 551, 567, 672, 719, 795
Desk clamp (P.)* 585
Despatch, a troublesome 447
Developments due to electricity (E.). 630
Device, a much needed (E.) 1
Diary, a Morse (E.) 29
Diesel engine, the 241
Differentially compounded motor, the (R.) 109
Difficulties of long-distance electric transmission, some, by P. M. Lincoln 547
Dinner to Mr. W. D. Sargent 287
Dinner of the American Institute of Electrical Engineers 224
Directory of the Scientific Alliance of New York 796
Discharge in an electric field (R.) 247
Distribution losses in electric supply systems, by A. D. Constable and E. Fawsett 540, 582, 610
Distribution, system of electric (P.)* .. 56
Dredge, motor driven (P.)* 205
Duplex steam turbine (P.)* 689
Dynamo and motor insulation, the development of, by Charles Farrington 431
Dynamos and motors on vertical axles, turbines and centrifugal pumps (R.) 658

E

Eastbourne, England, electricity supply works, by A. Webster* 515
Economic value of testing, the 196
Economy in wiring multiple switchboards, by S. H. Browne* 307
Economy of isolated electric light equipments in small factories, by F. O. Runyon 675
Edison, a talk with 33
Edison, two years' rest for 310
Edison and Jungner cells (R.) 283
Effect of an electric shock, the (R.) ... 346
Effect of changes of temperature on permanent magnets, the (R.) 418
Effect of temperature on permanent magnets (E.) 357
Effect of the shape of the wave form on transformers (R.) 738
Egyptian traction system, an 232
Electric accumulator plate (P.)* 281
Electric automobiles 188
Electric cables for high-voltage service, by Henry W. Fisher 928
Electric Club, the 475
Electric contact brush (P.)* 449
Electric crane (P.)* 865
Electric fans (E.) 357
Electric fans on shipboard (E.) 533
Electric ferryboats (E.) 2
Electric furnace (P.)* 584
Electric furnace methods in iron and steel production, by J. B. C. Kershaw 793, 842
Electric headlight (P.)* 735
Electric haulage on canals, by Frank C. Perkins 797
Electric insulating briquettes (P.) 688
Electric lifting magnets, by Waldon Fawcett* 162
Electric lighting for railway trains (E.) 30
Electric lighting in a dynamite factory. 549
Electric lighting of the Aldershot camps (R.) 826
Electric lighting plant of Barnstaple, England, the (R.) 315
Electric lighting of railway cars (R.). 739
Electric omnibuses in Italy (R.) 314
Electric power in the iron and steel industries, by George E. Walsh 753
Electric power transmission at Arbroath, Scotland (R.) 387
Electric pumping plant for the Kaiserstuhl II mine at Dortmund, Germany (R.) 347
Electric railway activity (E.) 751
Electric railway of the Fayet-Gervais, in the Chamonix Valley (R.) 692
Electric regulator, new (P.)* 656
Electric traction in 1902, by Dr. Louis Bell 35
Electric wiring (R.) 418
Electric works at Worcester, new (R.). 866
Electrical brake (P.)* 281
Electrical central station at the Dusseldorf Exhibition, the (R.) 109
Electrical developments (E.) 220
Electrical dinner, an 232
Electrical dispersion at Vesuvius 803
Electrical distribution and selective distribution, method of (P.)* 864
Electrical distribution, system of (P.)* 137
Electrical equipments of iron works ... 382
Electrical exhibits at the Louisiana Purchase Exposition in 1904, preparation for* 64
Electrical interests combined in New Orleans 779
Electrical mining notes, by Sydney F. Walker ...3, 153, 187, 360, 399, 820, 890
Electrical notes from Europe, by C. L. Durand* 132, 238, 277, 308, 580, 850
Electrical operation of cotton factories, the (R.) 246
Electrical pumping installation (R.) ... 247
Electrical resistance of steel 297
Electrical signaling to moving trains (E.) 219
Electrical theories, by Dr. John Trowbridge 33
Electrical towing on the New York state canals (E.) 397
Electrical Trades Society, the 17
Electrical transmission under land and water (E.) 879
Electrical transmission under land and water, by Alton D. Adams 894, 918
Electricity and air compressors 336
Electricity as a motive power for trunk lines (R.) 690
Electricity from refuse 860
Electricity from the heavens above (E.) 30
Electricity in spinning and weaving mills, the application of (R.) 936
Electricity on German vessels, use of .. 448
Electrification of the Mersey Railway (R.) 691
Electrification of the South London tramways (R.) 19
Electrochemistry and electrometallurgy, industrial, by J. B. C. Kershaw, 54, 128, 173, 194, 237, 270, 303, 337, 367, 405
Electrode heating caused by sparks, a study of (R.) 282
Electrodynamic condenser, the (E.)... 534
Electrodynamic condenser, the, James Swinburne* 550
Electrolytic apparatus for rectifying alternating currents, new form of, by C. L. Durand* 377
Electrolytic decomposition for the Cologne accumulator works (R.).. 419
Electrolytic treatment of galena and the reduction of lead, by Alec A. Beadle 841
Electrolyte, and its determination, ohmic resistance of (R.) 139

Electrolytic preparation of antimony (R.) 206
Electrolytic synthesis of sugars (R.) .. 139
Electromagnetic apparatus for speed variation (R.) 867
Electromagnetic brake (P.)* 734
Electromagnetic clutch (P.)* 617
Electromagnet for separating metals (P.)* 385
Electromagnetic reciprocating tool (P.)* 344
Electrometallurgical problems 413
Electromotive force in plants (R.) 246
Electrons, on, by Sir Oliver Lodge, 165, 224, 261, 295
Electrons (E.) 260
Engine cranks, method of manufacturing (P.)* 172
Engineers, an opening for young (E.) 1
Engineer's ideas on technical education, an (E.) 119
Engineer's Society of Western Pennsylvania, proceedings of the 768
Engineer, the telephone (E.) 879
Engineering Association of the South 390, 674
Engineering building, plans for an 644
Engineering building, progress in the plans for 687
Engineering building, the (E.) 913
Engineering college of the University of Illinois 390
Engineering data (E.) 398, 566
Engineering digest, the 404
Engineering laboratories (E.) 533
Engineering societies (E.) 359
Engineering, some limits in heavy electrical 119
England, electric conduit railways in .. 144
Equipment of a modern shipyard, the electrical* 86
Erith, England, electric lighting of (R.) 246
Estimation of copper in ores, matte, etc., the, by O. H. Parker* 374
Ethics of the telephone (E.) 672
Europe, a review of electrical engineering in, during 1902 48
Europe, electrical notes from, by C. L. Durand* 132, 238, 277, 308, 580, 850
Evolution of the telephone switchboard. 189
Experimental basis for the theory of the regulation of alternators, by B. A. Behrend* 760
Experiments with a high-tension fuse (R.) 618
Experiments with the Pupin system of long-distance telephony, by F. Dolezalek and A. Ebeling* 104
Expiration of the Brush storage battery patents—effect on the storage battery industry (E.) 293
Exports of manufactures from the United States, 1902 212
Exposition power plant 623

F

False economy in municipal engineering (E.) 462
False economy in telephone service (E.) 880
Fan motors (E.) 597
Fan motors a good investment (E.) .. 629
Faraday Society, the 925
Fault localizing on tramway systems .. 243
Fire at the Niagara Falls Power Company's plant 202
Fire pump, electrical, in operation at Rouen, France 106
Fluctuation in rotary motors, apparatus for preventing (P.)* 616
Fogs and smoke (R.) 18
Formula for power necessary to elevate water 695
French rules for installing electrical conductors (R.) 780
French slate quarries, electricity in the (R.) 866
Frequency regulation (R.) 738
Frontier Telephone Company, Buffalo, N. Y. 141
Furnaces, electric (E.) 792
Furnace, electric (P.) 205, 449
Fuse or cutout, electric (P.)* 245

G

Gas and electricity, dangers of (E.) 423
Gas engine diagrams (R.) 138
Gas turbines (E.) 294
General Electric Company, the eleventh annual report of the 614
General Electric directors, new 743
Generator, adjusting compound-wound (P.)* 136
German briquetting machinery 111
German railway statistics 438
Gilliland, death of E. T. 686
Globe copper district, Arizona, the 196
Glower, and methods of attaching terminals (P.)* 734
Glower for Nernst lamp (P.)* 137
Glower lamps, improvements in (P.)* . 313
Gold extraction by the cyanide process 333
Good roads (E.) 259
Great Britain, notes from,* 127, 240, 380, 412, 548
Great Britain, recent progress in the electrical industry in 193
Grounded wire as a protection against lightning, by Ralph D. Mershon 926
Guard wires on electric tramways 348

H

Hallau monophase light and power plant, by Frank C. Perkins* 544
Heat developed spontaneously by the salts of radium, the (R.) 586
Heating device, electric (P.)* 657
Heavy alternating currents, a method of measuring (R.) 482
Hertzian wave wireless telegraphy (R.) 826
High-potential conductor (P.)* 107
High temperature electrochemistry—Notes on experimental and technical electric furnaces, by R. S. Hutton and J. E. Petavel* 5, 45, 108
High-tension switching on a heroic scale (R.) 555
High-voltage transmission, evolution in, by Charles F. Scott 37
Holiday greetings 4
Horse, the deadly (E.) 461
Horse and the automobile, the (E.) ... 358
Horse *versus* the automobile, the (E.) . 430
Horseless ferryboats (E.) 430
Huddersfield corporation tramways (R.) 691
Hydroelectric station at Cenischia, Italy (R.) 867

I

Importance of the Cooper Hewitt mercury vapor interrupter, Dr. Michael I. Pupin's estimate of the 266
Important air-brake experiments abroad 863
Improved rapid transit facilities for New York city (E.) 493
Improvements in transportation facilities (E.) 221
Incandescent lamps, the manufacture of (R.) 781
Incandescent, Nernst, and Osmium lamps (R.) 174
Incombustible paper (E.) 672
Independent crane conveyors for coal supply in central stations, the use of (R.) 690
Independent Telephone Association of Maine, the 414
Independent Telephone Association of Wisconsin, the 202
Index of the Technical Press 688
Inductance coils, the dimensions of large (R.) 314
Induction coil (P)* 552
Induction motors, speed regulation of (R.) 138
Induction motors, speed regulation of (E.) 118
Induction motors for factory operation (E.) 752
Induction phenomena of the mercury arc in a magnetic field (R.) 937
Industrial chemistry and electrometallurgy (E.) 117
Industrial electrochemistry and electrometallurgy, by J. B. C. Kershaw, 54, 128, 173, 194, 237, 270, 303, 337, 367, 405, 439, 469, 509, 537

INDUSTRIAL SECTION.
Alcohol as fuel for internal combustion engines, M. & W. E. W.* . 872
Alternating-current long-scale voltmeters and ammeters, W. E. & Mfg. Co.* 590
Angulator, the, S. L. Co.* 556

INDUSTRIAL SECTION. (*Continued.*)
Asbestos high-pressure packing rings, H. W. J.-M. Co.* 556
Automobile charging outfits, W. E. & Mfg. Co.* 349
Automatic circuit-breaker for charging automobile storage batteries, W. E. & Mfg. Co.* 620
Automatic self-cleaning railroad switch, R. A. E. S.-C. S. Co.* ... 23
Automatic signal system for electric railways, a new, P. S. Co.* 740
Automatic switches, G. I. A. L. Co.* 559
Automatic Telephone Company's success 620
Automatic telephone equipment, A. E. Co. 662
Automatic under-feed stoker, A. S. Co.* 695
Auxiliary oscillating base and oscillating fan, S. E. & Mfg. Co.* .. 422
Bakery, a modern, S. E. Co. 622
Battery fan, a new, J. J. & S.* 692
Berlin automobile exposition, the .. 589
Bituminized fibre conduit, A. C. Co.* 73
Branch fuse blocks, H. W. J.-M. Co.* 23
Cable clips, Jas. S. B. & Co.* 526
Cable jointing device, a new, E. C. J. & A. Co.* 744
Cable-splicing, telephone, W. H. C. & Co.* 902
Calculagraph, the C. Co.* 558
Calculating automatic time-stamp for telephone switchboards, A. T. S. Co.* 486
Canadian Westinghouse Company .. 746
Candle-power and resistance, W. E. Co.* 664
Ceiling fans, four-bladed, H. F. & M. Co.* 487
Ceiling fan for direct current, D. L. B. & B. Co.* 253
Chicago telephone holder, C. W. M. Co.* 906
Circuit-breakers, G. I. A. L. Co.* .. 389
Circuit-breakers, S. E. M. Co.* 662
Circuit-breaker for high-tension circuits, electrically operated oil, W. E. & Mfg. Co.* 142
Clay products, special, S. V. C. Co.* 249
Combined deflector and guard for electric fans, D. M. Co.* 70
Combined high and low-frequency ringer, A. E. T. Co.* 905
Condenser, a new vacuum, S. & E. E. Co.* 212
Conduit fasteners, H. & H. Mfg. Co.* 487
Conductivity bridge, a new, J. G. B.* 452
Constant-potential interchangeable and adjustable arc lamp, O. M. Co.* 253
Construction specialty, a new, W. S. A. Co.* 745
Cooper Hewitt lamp, demonstration of the 110
Core type transformers, G. E. Co.*. 591
Creosoted wood, W. P. & C. Co. ... 904
Cuyahoga Telephone Company, the. 829
Decorations with incandescent lamps, E. Co. of A.* 623
Decorative and sign lighting, E. Co. of A.* 873
Desk telephone, a new, C. T. C. Co.* 940
Desk telephone bracket, new, De V. T. Mfg. Co.* 22
Direct-connected units for isolated plants and automatic charging plants, M. A. Co.* 622
Direct-current ceiling and bracket fans, R. & M. Co.* 252
Direct-current motors, B. E. Mfg. Co.* 871
Direct-current stationary motors and generators, E.-P. E. Co.* 112
Direct-current turbine dynamo, De L. S. T. Co.* 20
Door switch, M.-S. Co.* 23
Double four-bar generator, C. E. & E. Co.* 902
Double-power electromedical battery, J. H. B. & Co.* 22
Dry battery tests, new standard, W. R.* 176
Edison storage battery, improvements in the* 590
Efficiency tests of tangential waterwheels operating under 1,912 feet effective head of water 904

INDUSTRIAL SECTION. (*Continued.*)

Electric hoists for docks and wharves, C. W. H. Co.*..... 455
Electric motors in a cement-making establishment, C. W. Co.*..... 526
Electric power equipment of the Osaka Military Arsenal, Japan.. 388
Electric signs, P. E. Co.*..... 486
Electric specialties exhibit, C.-H. Co.* 832
Electric specialties, some new, H. E. Co.* 485
Electric train control and coupling, a new, W. E. & Mfg. Co..... 695
Electric vehicles, B. E. C. Co.*..... 557
Electrical apparatus, a new plant for the manufacture of, W. E. Co. 487
Electrical instruction for officers at Sandy Hook, W. E. & Mfg. Co... 589
Electrical manufacturer organizes under new name, C. E. Co..... 745
Electrical vehicles, new type, E. V. Co.* 179
Electropneumatic system of train control for the Brooklyn Elevated Railroad, W. E. & Mfg. Co.*..24, 286
Enclosed arc lamp, with all parts interchangeable, a new type of, G. I. A. Co.*..... 692
Enclosed contacts, C.-H. Co.*..... 75
Enclosed fuses, E. A. Co.*..... 940
Epicycloidal engine, an, C. E. E. Co.* 560
Exhibit of G. M. Gest, the..... 872
Expanding sleeves for telephone construction work, J. S. B. & Co.*.. 905
External spark-gaps, P. & R.*..... 589
Fan motor apparatus, P. E. Co.*.. 253
Fan motors, new type, D. Mfg. Co.*. 784
Fibre conduit, fireproof, A. M. Co.* 70
Foot-power lathes, S. F. Mfg. Co.*. 74
Frictionless wheeled duct rods, J. S. B. Co.*..... 350
Francke four-ported engine, T. C. M.* 941
Gas power plant in cement works, W. C. K. & Co..... 831
Gas works operation, electricity for, M. G. L. Co..... 696
Gasolene engine, a stationary, L. M. Co.* 285
Gest adjustable conduit terminals, the, G. M. G.*..... 208
Glass-enclosed switchboard meters, S. I. Co.*..... 743
Governors, friction water-wheel, W. G. Co.*..... 213
Gyrofan, the, J. E. Co..... 664
Headlight equipment for locomotives, electric, E. E. H. Co.*..... 621
Headlights, incandescent electric lamps for street car, G. E. Co.*.. 484
Heater switch, a new, H. & H. Mfg. Co.* 209
Heating and ventilation of railway and other shops, B. F. S. Co.... 665
Holophane Glass Company, the exhibit of the*..... 870
Induction motors, automatic start, for single-phase current, E. E. Mfg. Co.*..... 214
Insulators, high-potential*..... 75
I-T-E alternating-current circuit-breakers for "no voltage" release, C. Co.*..... 524
Integrating meters, direct-current, E. S. H.*..... 692
Integrating wattmeter for direct-current service, D. E. Mfg. Co.*.. 250
Intercommunicating telephone systems, A. K. Mfg. W.*..... 285
Internal combustion engine, a new, W. M. Co.*..... 318
Kellogg Switchboard and Supply Company 873, 904
Kelvin galvanometer, a new, L. E. K. A. Co*..... 660
Large three-phase locomotives, G. & Co..... 320
Linolite 829
Large transformers and special transformers, S. E. Mfg. Co.*.... 524
Linotype motor, a new, J. E. Mfg. Co.* 420
Maximum demand indicator..... 746
Measuring instruments, L. & N. Co. 829
Mechanical oil cups, L. Co.*..... 179

INDUSTRIAL SECTION. (*Continued.*)

Metal tool rack, a, L. M. Mfg. Co.* 209
Model "Universal" desk fan, E. D. W.* 744
Motor starting rheostats, F. W. E. W.* 559
Motor with external armature, a, M. & C.*..... 285
Motor-stop, a new, C. E.-S. Co.*.... 694
Motors for Interborough Rapid Transit Company, New York city, subway, W. E. & Mfg. Co.*..... 453
Multispeed motor applications, S. Mfg. Co.*..... 388
Multipolar motors and generators, M. A. Co.*..... 208
Nail puller for electricians, S. & H. Co.* 72
New double battery, a, H. B. Co.*.. 589
New insulating line material, a.... 320
New lineman's climber, a, S. & H. Co.* 317
New ohmmeter, a, M. & R.*..... 71
New ringer, a, S.-C. T. Mfg. Co.*... 70
New boiler compound, a, W. T. M... 352
New type 220-volt lamp, S. E. M. Co.* 556
New wire shade-holder, a, J. S.-H. Co.* 390
New works for Dayton Electrical Manufacturing Co., D. E. M. Co.. 746
New York & New Jersey Railroad, engineers for..... 696
Novel use for underground electrical conduits, a, R. L. & P. Co.*. 742
Office cleats and telephone specialties, J. S. B. & Co.*..... 421
Oil-electric machine, automatic, G. P. Co.*..... 144
Oil filtering system, a, W. S. F. S.*. 284
Oil separator, the test of an, S. S. S. Co.*..... 558
Oil transformers, K. E. Co.*..... 832
Open and enclosed dynamos and motors, F., M. & Co.*..... 250
Party line service, B. T. S. Co.*... 906
Patented construction specialties, I. E. Co.*..... 938
Pedrick & Ayer shop, description of the new*..... 830
Porcelain insulator, new, H. D. M.* 422
Portable photometer, a, E. & E.*... 421
Primary cell, a new, S. E. Mfg. Co.* 454
Producer-gas power plant for Greece 591
Public accountant in the electrical industries 904
Pump, a new automatic electric, A. E. Co.*..... 484
Push-button switch, M.-S. Co.*..75, 662
Railway motor for city and suburban service, S. E. Mfg. Co.*.... 178
Receiver, new type, C. T. C. Co.*... 903
Regulating and reversing controller for direct-current motors, W. E. & Mfg. Co.*..... 524
Revolving desk fan, G. C. T. Mfg. Co.* 352
Revolving fan motors for alternating and direct current, F. W. E. W.* 248
Rheostat, a new, W. E. Co.*..... 740
Rheostat, cast-grid, S. E. Mfg. Co.* 872
Rivet coupling, a, J. W. H..... 743
Self-cooling transformers, W. E. & M. Co.*..... 782
Self-flashing sign lamps, P. Co.... 870
Semi and fully enclosed motors, C.-W. W.*..... 177
Series transformers for instrument and switch work, W. E. M. Co.*. 661
Shipping an 850-kilowatt generator in one piece, R., McG. & Co.*.... 623
Sight-feed rod oil cup for movable bearings, L. Co.*..... 143
Silvey storage battery, the D. Mfg. Co.* 422
Slow and moderate speed belted generators and motors, T. E. Co.*... 141
Small direct-current power motors, H.-C. E. Co.*..... 624
Spark coils, E. C. Co.*..... 487
Sounding machine, an electric, F. T. & C. S. Co.*..... 252
Speed controller, an electric, L. G. Co.* 110
Standard Paint Company gives a house-warming to its employés.. 624

INDUSTRIAL SECTION. (*Continued.*)

Steam turbines, W. E. & Mfg. Co... 487
Steam turbine installation, new, W. E. & Mfg. Co..... 208
Storage batteries, new electric..... 352
Storage batteries, open-type, C. S. B. Co.*..... 522
Stow multispeed motors in Pittsburg, S. M. Co.*..... 830
Street car motors, protection of, W. E. & Mfg. Co.*..... 421
Swiveling trolley, a, W. E. R. & Co.* 743
Telephone apparatus, three popular forms of, F. T. C. S. Co.*..... **421**
Telephone extension circuit closer, G.-D. Co*..... 942
Telephone holder, Chicago, C. W. M. Co*..... 22
Telephone pay station development, C. P. S. Co.*..... 938
Telephone receiver, a new, H.-C. E. Co.* 785
Telephone transmitter, a new type of, F. T. Co.*..... 351
Tool room lathe, a new, S. F. Mfg. Co.* 350
Train lighting by electricity, a system of*..... 210
Tray storage battery equipment, a new, S. S. B. Co.*..... 742
Tread-Kill shaking grate, M. H. T. & Co.*..... 316
Turbine shipments, W. M. Co..... 663
Twenty-ton switching electrical storage battery locomotive, C. W. H. Co.*..... 696
Twin generators for turbines, N. E. M. Co.*..... 907
Two-kilowatt dynamos, H. E. Co.* 870
Two 2,500-kilowatt, direct-current, double-commutator generators, B. E. Mfg. Co.*..... 783
Universal gear-cutting and milling attachment for lathes, the, S. F. Mfg. Co.*..... 317
Varley Duplex Magnet Company... 942
Ventilated cell diverters, W. E. & Mfg. Co.*..... 905
Vise, a new hand, U. D. F. T. Co.*. 784
Water-wheel installation, a new, J. L. Co.*..... 424
Western electrical supply company opening, E.-M. Co..... 740
Wire-cutting and linemen's tools, S. & H. Co.*..... 693
Wiring for engine-stops and electric motors, F. S. P.*..... 72
Yost key socket, Y. E. Mfg. Co.*.. 784

Slipping of locomotives at high speed (R.) 781
Shipyard, the electrical equipment of a modern* 86
Shunt motor for machine operation, the (E.) 672
Side poles for electric tramways (R.) 418
Single-phase traction motors 899
Sixty-mile, fifty-thousand-volt transmission system 404
Slotted field-poles (P.)* 617
Small electric motor, the use of the (R.) 554
Smoke and the determination of its density, by A. A. Cary* 727, 774
Society for the promotion of engineering education, the 434
Soft steel used in the construction of electrical machinery (R.) 175
Solder for aluminum 830
Solidification of fluorine and the combination of solid fluorine with liquid hydrogen (R.) 658
Some limits in heavy electrical engineering 119
South Lancashire, England, tramway network (R.) 618
South Lancashire electric tramways, England 645
Southern power plant, a (R.) 18
Space telegraphy, some problems in, by Joseph B. Baker* 680
Sparking coils for gas engines (R.) 346
Speaking oil lamp, the (R.) 690
Speed of electric cars in the United States and abroad 384
Speed regulation of induction motors (E.) 118
Speed regulation of induction motors (R.) 138
Standard transformer voltages, by J. S. Peck* 860
Static discharges in electric circuits, by Percy H. Thomas 828
Superheated steam for turbines, the advantages of (E.) 839
System of electrical distribution (P.)* 778, 824
Spring-jack for telephone switchboards (P.)* 735
Standards for electrical supply mains (R.) 386
Stanley Electric Manufacturing Company 503
Stanley Electric Manufacturing Company, sale of the 245
Static electricity applied to ore dressing (R.) 246
Steam turbine, the (E.) 185
Steam turbine types (E.) 598
Steam turbines (E.) 671
Steering apparatus, modern electric, by Frank C. Perkins* 435
Steering gear, an electric 41
Stock Exchange, New York city, the new headquarters of the* 636
Stopping, cost of (R.) 174
Storage battery (P.) 616
Storage battery in 1902, growth of, by Charles Blizard 67
Street railway traffic, interference with (E.) 118
Students of the American Institute of Electrical Engineers (E.) 493
Students of the American Institute of Electrical Engineers 508
Subject of theses in electrical engineering at Lehigh University 655
Summer courses at the Massachusetts Institute of Technology 711
Supervisor's highway convention, proceedings of the fourth annual 370
Supplement, the (E.) 703
Suppression of noises in the cities (E.) 398
Surface contact structure (P.)* 245
Surface contact system, a new (R.) 936
Swedish brake for electric motors 537
Switch, electric (P.)* 204
Switch, electrical (P.)* 17
Switch, long life of a 146
Switch, quick-break, electric (P.)* 205
Synchronism indicator (P.)* 517

System for distributing electrical energy (R.) ... 419
System of mounting and wiring electric motor cars (P.)* ... 935
Systematic method of calculating the dimensions of dynamo-electric machinery ... 351
